

SMARTair Door Access at Swift Apartments York

OVERVIEW

Mark Allan and his family developed Swift Apartments, a modern block of six spacious, self-catering apartments in York. Designed with guests' convenience in mind, the apartments feature a roof top terrace, lift, and ground floor garage, and are located next to the Swift Fitness Gym.

Mark needed a secure, reliable, and flexible access control solution that would give his guests seamless, keyless entry—without the need to queue at reception.

THE SOLUTION

SMARTair®
Your Access. Your Control.

After reviewing several options, Mark chose the SMARTair door access solution, supplied and supported by Vador Security Systems in Leeds. The system provides secure, wireless access control for:

- ✓ Apartment doors
- ✓ Public entrance doors
- ✓ Landing areas
- ✓ Garage roller door

HOW IT WORKS FOR GUESTS

Book & Pay

Guests book via the Swift Apartments website (Roombasket) or Booking.com and complete payment online.

Receive Access

Online Check-in automatically sends a unique mobile key via email and SMS through the Openow app.

Seamless Entry

Guests use their smartphone to open apartment doors, public doors and, if applicable, the garage.

Parking Access

Guests who have purchased parking receive access to the garage during their stay.

EASY MANAGEMENT FOR THE TEAM

Independently of Resident Pro, Mark and his team can also use SMARTair's powerful tools to manage access:

SMARTair Web Service on smartphones for remote access management.

TS1000 SMARTair Software at reception for advanced control.

Create, update or revoke user access, issue key cards or PINs, and manage common doors—all in real time.

THE RESULTS

- ✓ Enhanced guest experience with keyless, contactless access
- ✓ Reduced administration and reception workload
- ✓ Secure, reliable access across all apartment and communal areas
- ✓ Flexible access management from anywhere
- ✓ Future-proof solution that grows with the business

“SMARTair with Resident Pro gives us complete control and our guests total convenience—exactly what a modern apartment stay should feel like.”
— Mark Allan, Owner, Swift Apartments York
